J. M. Campbell has just finished threshing on his farm at Kinitino and Stony Creek. Mr. Campbell had ninety acres under crop, thirty acres at Kinitino and sixty at Stony Creek, and threshed out 3,700 bushels of grain, all of which was of first-class quality. This is a very fair yield for such a large acreage of about equal portions of mixed grain. Through the Carrot River district the crops are all turning out splendidly, Jack Frost having totally ignored that section of country this year.

Toronto has again the proud honor of having one of her sons the champion sculler of America and probably of the world. The race which gave O'Connor the proud position was rowed last Saturday on the Potomac between he and Teemer of McKeesport, and was won by O'Connor by seven boat lengths. The defeat of Teemer by such a long distance is something wonderful as he was supposed to be invincible on this continent.

Hanlan and Beech rowed a race on Tuesday last, 27th inst, on the Nepean river, in Australia, for \$2,500 a side in which the once great Torontonian was again defeated. It is thought that Hanlan will make his future home in Kangaroo land.

NORTHWEST ASSEMBLY.

REGINA, Nov. 13.—The Speaker took the chair at the usual hour and the clerk read the journals of last Wednesday's proceedings, which were approved.

Turiff presented a memorial from the Northwest Prohibition Alliance, and moved that it be received. (Carried.)

Cayley moved the adoption of the report, and also moved the House into committee of the whole to consider the chapters mentioned in the report of the civil justice committee. Turiff in the chair.

The committee proceeded to the consideration of Chap. 20, respecting prairie fires, which was discussed and postponed for further consideration. Chap. 23, entitled an ordinance respecting agricultural societies was adopted without amendment. Sutherland moved that chapter 46 be repealed: this ordinance refers to certain property exempt from seizure in the Territories. Considerable discussion occurred on this ordinance, Sutherland, Clinksill and others contending that the exemptions were too great. No important amendments were made and the ordinance was adopted.

Ross moved that the petition against the return of Hilliard Mitchell be referred to the committee on privileges and elections. Carried.

Hoey introduced a bill for the protection of outside municipalities. The bill was read a first time; second reading tomorrow. The House then adjourned.

REGINA, Nov. 13.—After the reading of the journals, Plaxton presented a petition from settlers in township 14, range 25, praying for certain road improvements there. He moved, seconded by Betts, that the petition be received and referred to the Advisory Board. Carried.

Before proceeding to the orders of the day, Tweed moved, seconded by Davidson, that the Civil Justice Committee be requested to consider the advisability of establishing a code of procedure for collecting small debts at a reasonable cost and report as early as possible.

Cayley said in his part of the country the desire was that there should, if possible, be established a quicker mode of collecting small debts, than at present. As matters now were it cost as much to collect a \$25 account as \$250. What we require is relief from the fees of clerks. The motion was carried.

REGINA, Nov. 14.—The Speaker laid on the table the following returns: Copies of correspondence with the Governor in Council respecting memorials and resolutions passed at the last session of the Northwest Council and transmitted to Governor General for half-breed claims and the ballot system, payment of pre-emption and branch railways; liquor system, reduction of registrars' fees, new system of legislation, and division of the Territories.

Betts gave notice that he will on Friday move that the Dominion Government be requested to take immediate action in the matter of railway extension to the valley of the Saskatchewan.

Clinksill gives notice of a memorial to the Governor-General praying for compensation to loyal half-breeds for losses occasioned by the rebellion, and asking an investigation by a judge of the supreme court of Saskatchewan district.

REGINA, Nov. 16.—After the reading of the journals to-day several petitions were received.

Betts, in proposing his resolution respecting branch railways, alluded to the fact that in his district in 1882, they had raised one hundred and twenty thousand bushels of grain. Last year they raised only fifteen thousand, not on account of a bad season but because there was no market. He said there was a pressing necessity that railways should be extended to the Saskatchewan. He moved that an address be presented to the Dominion Government praying for the extension of branch lines to the Saskatchewan country. Oliver supported the motion.

Betts said he wished to add to the motion that a copy be transmitted to the Dominion Government.

Cayley moved the reference of the subject to a committee.

Betts accepted the committee. Clinksill in moving a resolution respecting the loyal half-breeds of Brexey, made a lengthy speech in support of his motion and referred to these half-breeds and their peculiar situation and suffering during the rebellion. He showed how they had lost all their stock and were taken prisoners by the Indians. They never took any part in the rebellion. In support of his defence of their loyalty he read Rich's letter in which he asked them to rise and take Battleford. He moved that on account of the rejection by the half-breed commissioner of claims

for compensation to loyal half-breeds for losses sustained, great hardship has been caused thereby and that an investigation of the same should be made by a judge of the Supreme Court of Saskatchewan district, who should be empowered to grant such compensation to such half-breeds as may be found justly entitled thereto.

Cayley—I would move that the matter be left to a select committee consisting of Clinksill, Sutherland, Hoey, Oliver and Mitchell.

It being 17 o'clock the Speaker suddenly left the chair with Clinksill's motion and Cayley's amendment in his hands.

Clinksill gave notice that he will move a resolution asking the Dominion Government to repeal the provision of the act respecting wood cut on Dominion lands in the Battleford district.

Betts gave notice that he will, on Saturday, ask leave to introduce a bill regulating the practice of medicine in the Territories.

One of the amendments which the Municipal committee proposes, is to tax university, school and church lands, but exempting buildings.

REGINA, Nov. 17.—After reading the journals to-day several reports from the different committees were received and adopted.

To-day's sitting was very short; and the most of the time was taken up by Clinksill with his half-breed compensation and timber dues bills.

Chapter 37, respecting hawkers and peddlars, was considered. Considerable discussion arose on this chapter. Some important amendments were made. First moved that in incorporated towns and municipalities the right to license peddlars and others be vested in the municipality instead of the Assembly. This amendment was carried after considerable discussion.

Chapter 38 was the next considered. Betts endeavored to introduce a similar resolution respecting billiard licenses but the amendment was lost. The chapter was carried after certain amendments were made. The House then adjourned.

ANNEXATION.

The banquet to the Hon. J. H. Pope, Minister of Railways and Canals, was a magnificent affair. The Right Hon. Sir John Macdonald met with an enthusiastic reception. In the course of Sir John's speech he spoke in the highest terms of Mr. Pope, and thus delivered himself on annexation:—"It seemed to be the impression that he would make an important announcement on one of the great issues of the day. (Applause.) He wished to speak on this matter with no uncertain sound. We are British subjects, and we know the advantages we possess in being connected with that great empire. As we were born British subjects we expect to die British subjects. What would we gain by a change? If there is a country on the face of the earth that is happy and prosperous it is the Dominion of Canada. We have a law-abiding population, except now and again in the Northwest. (Laughter.) We have a splendid climate, a rich soil and an energetic people. We have good laws wisely administered. In every branch of industry our country is prosperous. We have no reason to envy any other country, and as a mere matter of self-interest it would not only be prejudicial but ruinous for us to sever our connection with Great Britain and unite ourselves to the country south of us, great as it may be. (Applause.) The Canadian constitution is much superior in many ways to the American constitution; we are a freer people in every way, and we should be acting against our best interests if we were to change our form of government or sever our connection with the Mother Country. What should we gain by such a change? We might get a little more for our Upper Canadian barley (laughter) but in no other way that I can see should we be the gainers. On the other hand we would be taxed from Washington, and would thus forfeit our rights as free men. Are we going to sell our heritage for such a mess of pottage? Annexation, we must always remember, would lead to direct taxation, and if we adopted Commercial Union or Unrestricted Reciprocity, which practically means the same thing, we would have to supply our diminished revenue by resorting to direct taxation. I, for one, have no fear that this agitation, which has been commenced in a spirit of desperation, will amount to anything. The country under Conservative administration has prospered and the people have faith in us, and on the part of that Government I wish to declare here to-night that our policy will be as it has been, Canada for the Canadians, by the maintenance of a moderate and just protective system to our infant industries as inaugurated in 1878. We would be blind to our interests if we did not maintain that system. We are opposed to annexation in every form, whether it is in plain terms or disguised under commercial union or unrestricted reciprocity. These are our principles, and I believe they will meet with the approbation of the country; and these are the principles that will be inscribed on our banner in 1892, and which, when I may perhaps be a simple consulting physician (laughter) will be carried on to victory by my colleagues. We have no fear of the result. We believe that in 1892, as heretofore, those principles shall triumph; that we shall see open disloyalty crushed; that all attempts to hurt the country shall meet the fate they deserve, and that a new lease of power shall be given the Conservative Government." (Applause.) Sir John spoke with much force; was very attentively listened to and was frequently applauded.

SCRATCHED 28 YEARS
A Scaly, Itching, Skin Disease, with Saddest Suffering, Cured by Cuticura Remedies.

If I had known of the CUTICURA REMEDIES twenty-eight years ago it would have saved me \$200 (two hundred dollars) and an immense amount of suffering. My disease (psoriasis) commenced on my head in a spot not larger than a cent. It spread rapidly over my body and got under my nails. The scales would drop off of me all the time, and my suffering was endless, and without relief. One thousand dollars would not tempt me to have this disease over again. I am a poor man, but feel rich to be relieved of what some of the doctors said was leprosy, some ringworm, psoriasis, etc. I took ... and ... Sarsaparilla over one year and a half, but no cure. I went to two or three doctors, and no cure. I cannot praise the CUTICURA REMEDIES too much. They have made my skin as clear and free from scales as a baby's. All I used of them was three boxes of CUTICURA, and three bottles of CUTICURA RESOLVENT and two cakes of CUTICURA SOAP. If you had been here and said you would have cured me for \$200 you would have had the money. I looked like the picture in your book of Psoriasis. I scratched twenty-eight years, and it got to be a kind of second nature to me. I thank you a thousand times. Anything more that you want to know write me, or any one who reads this may write to me and I will answer it. DENNIS DOWNING.

A First-class Livery, Feed and Sale Stables

We would like to invite the public when in Prince Albert to give us a call. Our stables are the most central in town—next door to Queen's Hotel.

We keep the largest and best Livery and Feed Stable in town.

We have a lot of new horses and rigs—second to none west of Winnipeg—to hire on reasonable terms.

You will always find good, reliable and accommodating men night and day at our stables to attend to your wants.

All our horses are first-class livery horses; can be driven by ladies; particular care has been taken to purchase horses of that class.

You can always depend on getting the best turnout in town at the Grand Union Stables.

N.B.—We do not advertise in one paper to contradict it in another, as that constitutes a falsehood, but we keep the best Livery and Feed Stable—and at the lowest prices—in town.

THE LITERARY MATTER in the CHRISTMAS GLOBE will be entirely original and will include stories from the ablest pens in Canada. The subjects treated being wholly Canadian.

FIVE HANDSOME LITHOGRAPHED PLATES accompany the paper, the principal one being a scene from Vancouver Park, B.C., from a painting by Mr. L. R. O'Brien, the celebrated Canadian artist.

MECHANICALLY the XMAS GLOBE will be in every way first-class and no expense will be spared in having it surpass anything of the kind heretofore published in this country.

AS THE DEMAND will be very great, we would advise intending purchasers to leave their orders at their newsdealer's or send direct to this office, not later than the end of the present month, as the supply will necessarily be limited and we cannot undertake to print a second edition.
